What is home?

home.made

Slab-Building and Sculpture

We will be combining slab-building techniques and your sculptural skills to create plates with a three dimensional element.

Decorative Techniques

**Are there any questions
before we start?**

Start creating your slabs

Roll out your slabs to the thickness of 2 paint sticks. You'll need enough slabs for 2 plates and 3 tiles.

**You can use the tiles
to experiment with
different techniques!**

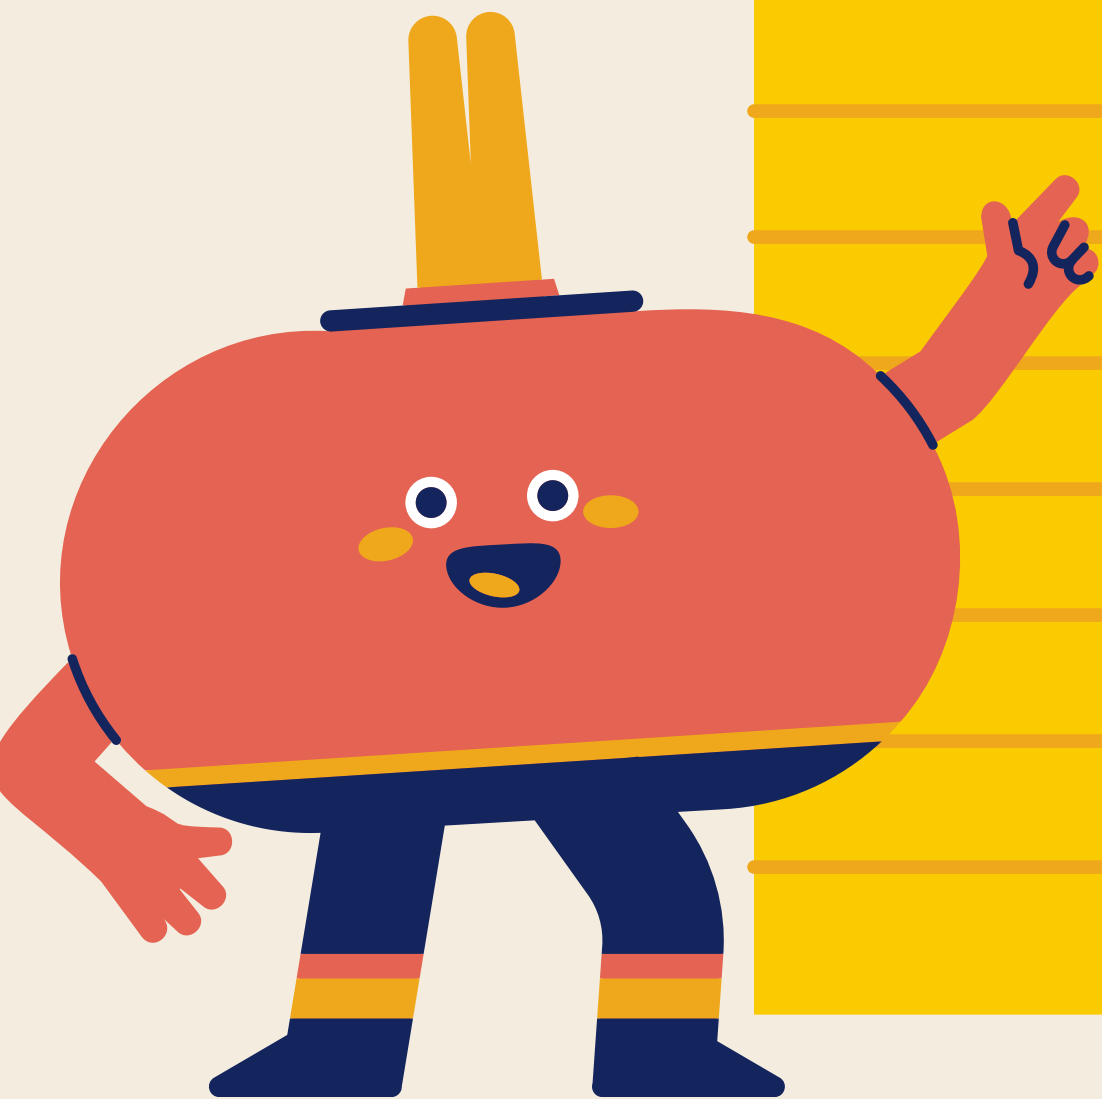

Start on your home.made dish!

- Who are you most comfortable around? What things remind you of that person?
 - Where are you most comfortable? What things remind you of that place?
 - Does home to you feel like your bed? Your friend group? Your favorite music? Your favorite city? Is your sport your home? Your sports team?
- 

**What did you learn
from your practice
plate/bowl?**

**That's it for
today's class!**
